

## Product Information Sheet

### Product Description

SMS & SMMS fabric is composed by nonwoven multi layer w spunbond and nonwoven PP that have a good performance widely use for isolation gown and other Medical healthcare products.

### Product Informations:

<b>Color</b>	White   Blue   Yellow   Custom Color
<b>Material</b>	Spunbond Non-woven PP and Meltblown Multi Layers
<b>Weight(gsm)</b>	23 to 80gsm 40gsm SMMS meets Level 3
<b>Width</b>	Machine Width 3.2metre, production width per request for different final products
<b>Treatment</b>	Anti Bacterials/Fluid Resistance /Anti Blood penetration
<b>ITEM</b>	CSM100, CSM200, CSM300

### Features&Benefits:

- Help to meet regulatory US and European standards AAMI LEVEL 1-4 EN13795
- With a barrier against liquids/bacterials/blood penetration
- Durable and good breathable laminates for increase comfort during surgical procedures
- Superior strength resists against tearing, low-lint of minimize particulates
